

## JAC MINI 5T DIESEL FORKLIFT PERFORMANCE PARAMETERS

|                                 |                               |               |           |      |             |
|---------------------------------|-------------------------------|---------------|-----------|------|-------------|
| Model                           |                               | 型 号           |           | Unit | CPCD50      |
| Load Capacity                   |                               | 额定起升重量        |           | Kg   | 5000        |
| Max loading capacity at highest |                               | 最大载重升至最高      |           | Kg   | 4100        |
| Load Center                     |                               | 载荷中心距         |           | mm   | 500         |
| Mast Lifting height             |                               | 门架起升高度        |           | mm   | 4500        |
| Mast Free Lift                  |                               | 门架自由起升高度      |           | mm   | 1090        |
| Mast lifting Speed (With Load)  |                               | 门架最大起升速度 (满载) |           | mm/s | 500         |
| Mast tilt (Front/Rear )         |                               | 门架倾角 前/后      |           |      | 6°/6°       |
| Driving Speed                   |                               | 行驶速度          |           | km/h | 22          |
| Gradeability (With Load)        |                               | 爬坡力 (满载)      |           | %    | 20          |
| Turning Radius                  |                               | 最小转弯半径        |           | mm   | 3190        |
| Ground clearance                |                               | 最小离地间隙        |           | mm   | 180         |
| Form Size                       | Overall length(without forks) | 外 形 尺 寸       | 全长(无货叉)   | mm   | 3190        |
|                                 | Overall width                 |               | 全宽        | mm   | 1480        |
|                                 | Height of overhead guard      |               | 全高(至护顶架)  | mm   | 2310        |
|                                 | Height of mast, extended      |               | 全高(门架全伸出) | mm   | 5800        |
| Wheelbase                       |                               | 轴 距           |           | mm   | 2000        |
| Tread                           | Front                         | 前轮距           |           | mm   | 1182        |
|                                 | Rear                          | 后轮距           |           | mm   | 1202        |
| Overhang (front)                |                               | 前悬距           |           | mm   | 547         |
| Fork                            |                               | 标准货叉 (长x宽x厚)  |           | mm   | 1220×150×50 |
| Service Weight                  |                               | 自 重           |           | kg   | 7500        |
| Engine                          | Model                         | 发动机           | 型 号       |      | YuchaiF36   |
|                                 | Rated Output                  |               | 额定功率      | KW   | 55.8        |
|                                 | Rated power speed             |               | 额定功率时转速   | rpm  | 2200        |
